3. Get the béchamel sauce ready by: To make a roux, melt the butter in a skillet over medium heat and then whisk in the flour until it is completely incorporated. While whisking continuously, gradually add the milk until you have a sauce that is completely smooth. Continue cooking until the sauce reaches the desired consistency. Salt and a dash of nutmeg should be used as seasonings.
4. The first step in preparing the meat is to heat a little amount of vegetable oil in a frying pan over medium heat. When the onion and garlic have become aromatic and tender, add them to the pan and sauté them. Turn the heat up to high, add the meat that has been minced, and continue to cook it until it is browned. In the event that it is required, season with meat seasoning and more

salt. After a few minutes of simmering, stir in the tomato sauce; continue to cook.

5. Put together the dish by: Half of the cooked pasta should be layered in a baking dish, followed by half of the meat combination, and then half of the béchamel sauce should be layered on top of that. The layers should be repeated one more.
6. Baking: Place the grated mozzarella cheese on top, being sure to spread it out evenly. To ensure that the cheese is bubbling and golden brown, bake it in an oven that has been warmed for around twenty minutes.
